Parking

The Gallery is keen to make a display of our cars and is providing special parking on the grassed area behind the Gallery. Parking on the grass is only for MGs or other classic cars on the run. If you have taken your daily driver, please park in the designated areas on Norman Lindsay Crescent.

To access the MG Parking:

Take second driveway on the left, which is the main entrance. (Not the driveway to the cafe).

Caution - there is a small hump at the driveway entrance.

Follow the driveway around towards the garage with the red fire equipment box on the wall.

Turn left off the driveway onto the grass just before the garage.

Go around behind the garage turn right and park in a line on the grass in the area between the small apple tree and the stumps. There should be white lines indicating the area to park.

Access to the cafe from the grassed area is via steps adjacent to the garage.

You should expect that visitors to the Gallery are likely to stroll over to look at the cars, so please secure any valuables or take them with you.
